

Allied Instrumentation Expands Its Territory with Global Safety Equipment Manufacturer, MSA Safety Inc.

DAVENPORT, IA – MAY 16, 2022 – Allied Instrumentation was awarded a larger footprint with [MSA Safety Inc.](#) (MSA), expanding into the North-Central Midwest. Allied Instrumentation is a fast-growing process instrumentation solutions company representing best-in-class brands, and serving the Refining and Specialty Chemicals, Food and Beverage, Power, Natural Gas, and Biofuel Industries to name a few.

MSA is a global leader in the development, manufacture, and supply of safety products that protect people and facility infrastructures. Allied Instrumentation will represent the full MSA product line, including flame and gas detectors and IIoT gateways. The new territory includes the Upper Peninsula of Michigan, Minnesota, North Dakota, South Dakota, and Wisconsin.

“This is a very exciting time for Allied Instrumentation. Our team members have an unmatched level of process industry expertise, and we are gratified to have partners like MSA who recognize that and are enthusiastic about growing with us”, said Kevin Scheibler, President of Allied Instrumentation. “Our goal from day one has been to provide our customers with world-class expertise, products, and services. Our partnership with MSA will allow us to accomplish that mission and better serve our customers in the Northern Midwest.”

Allied Instrumentation is the parent company of [Great Lakes Process Controls](#), [JMI Instrument Co.](#), [Power Specialties](#), and [Promac](#). Allied Instrumentation is also authorized to distribute MSA products in Kansas, Western Kentucky, Illinois, Iowa, Missouri, and Nebraska.

Allied Instrumentation Capabilities Include:

- Procurement of process instrumentation including transmitters, flowmeters, heat-trace solutions, gas and flame detection, and wireless I/O devices
- Assistance with sizing and selection, and custom solutions
- Installation, calibration, and programming services
- Field commissioning service
- OEM and Manufacturing

Allied Instrumentation brings together a legacy of excellence that will better serve the needs of manufacturers and processing plants in the US.
